

Disposable Spiderwraps (AM/RF)

Are you tired of your stores spending too much time to remove and store Spiderwraps after each use? Does the struggle of removing your current spiderwrap slow down customer service at the register? The ISS Team has heard the complaints involving spiderwraps and we have developed a solution for you!

The ISS Disposable Spiderwraps are available in both AM and RF frequencies. The Disposable Spiderwrap allows you to eliminate the hassle of removing the spiderwrap at the register because they are a one-time use solution! Employees just run the Disposable Spiderwrap over your current deactivator and it will no longer alarm your EAS system! The customer quickly removes the Disposable Spiderwrap at home and throws it away with the product's packaging!

Here's how it works:
